

Two Mesa students from the Maricopa Community Colleges have been named 2013 Coca-Cola Community College Academic Team Scholars, college officials announced in a press release. The awards are based on student scores on the All-USA Community College Academic Team competition, for which more than 1,800 applications were received this year.

Each year, the Coca-Cola Scholars Foundation sponsors its Community College Academic Team program by recognizing 50 gold, 50 silver and 50 bronze scholars and providing nearly \$200,000 in scholarships annually. The program is sponsored by the Coca-Cola Scholars Foundation and is administered by Phi Theta Kappa Honor Society.

**Devin Oakes** and **Mirelle Wright** were gold scholars who each got a \$1,500 dollar reward.
