

## Practice Items For EXAM 4

*These are five questions from the exam. Respond to the questions as best you can without the textbook. When you are through, check your responses with the correct answers below. If you struggle with these, it may be an indication that you need to do a little (or even a lot) more preparation for the test.*

**1. According to Carl Jung, human beings connect with child archetypes, such as Stewie Griffin (from the TV show "Family Guy") and Lisa Simpson (from the TV show "The Simpsons"), because they are part of ancestral memories located in the \_\_\_\_\_.**

- A) personal unconscious
- B) ego
- C) collective unconscious
- D) unconscious

**2. Websites like *eHarmony.com* and *Match.com* pair prospective, romantic partners based on the results of personality-type tests. One of the dangers of taking online personality tests is that there \_\_\_\_\_.**

- A) is no face-to-face contact to help put the results in perspective
- B) are currently too few of them to draw scientifically valid conclusions.
- C) is a small normative group on which the test results are calibrated
- D) are all invalid and unreliable

**3. Marty is moody, manipulative, unstable, lacks a clear sense of identity, and often clings to others. He wants to have close relationships but is unable to do so because he is untrusting of others. Marty is suffering from \_\_\_\_\_ personality disorder.**

- A) antisocial
- B) borderline
- C) dependent
- D) avoidant

**4. Which of the following individuals would be LEAST likely to benefit from psychoanalysis?**
