

MCC CONVERSATION PARTNER PROGRAM

A conversation partner is a great way to build confidence and gain practice in speaking another language. International and domestic students are matched with each other to learn or practice each other's other languages. Both students have the opportunity to improve their oral communication skills, learn about another culture, and make new friends.

The International Education Office works as a contact liaison. Once students' have received each other's contact information, it is up to them to meet *informally* and on their own terms to socialize and practice the language(s) they are learning. *You must be a MCC student to participate in the program.*
