

Connecting your mCE and ADB accounts

1. Log into your myClinicalExchange account.
2. In your “myAlerts” center on the left, click on the “Account not yet linked with ADB to pull compliance data” link.

The screenshot shows the myClinicalExchange interface. At the top left is the logo. At the top right, it says "Logged in as Amanda Oliszewicz (Regis University)" with a "Logout" link. Below the logo is a navigation bar with links for Home, My Rotations, Account Settings, and FAQ. The main content area has a table for "My school compliance" with columns for My school compliance, Status, and Comments. The first row shows a warning icon, "NNP Compliance Checklist (Regis University)", and "Pending items exist". Below the table are two alert boxes. The left one says "You have 1 alert(s) that require attention." and lists "Account not yet linked with ADB to pull compliance data". The right one says "No scheduled/ongoing rotation(s) found. Please contact your coordinator for further information. (Or) Click here to see your past rotations, if any;". At the bottom is an "Email Messages" table with columns for Date Received, Message, and Attachments. One message is listed with the date 2/6/2017 and a subject line starting with "Subject: ApprovedMessage:Specific items that you submitted has been reviewed an".

3. Enter the user ID and password that you use to log into American Databank.
 - a. Do NOT enter your myClinicalExchange login ID or password on this page!
4. Click **Link Account**.

The screenshot shows the myClinicalExchange interface for linking an account. At the top left is the logo. At the top right, it says "Logged in as Amanda Oliszewicz (Regis University)" with a "Logout" link. Below the logo is a navigation bar with links for Home, My Rotations, Account Settings, and FAQ. The main content area has the heading "Enter ADB credentials to link your account". Below the heading are two input fields: "User ID:" and "Password:". At the bottom are two buttons: "Link Account" and "Cancel".

- Once you successfully link up your account, click **View Vendor Status**.

Save **Submit for Approval** **Close**

- The “Present Value” column will display the data and a link to the document of proof (if any).
- The “New Value” column will no longer accept any edits from you. Instead, a memo saying, “Imported from ADB” will appear.
- The “Comments” column will display any notations received from American Databank.

What do I do if...?

What do I do if I see items on my checklist in mCE that are highlighted yellow or flagged?

That means mCE has NOT received any data from American Databank for this item.

- Please check your ADB profile and confirm that you have completed all items for ADB. myClinicalExchange will NOT pull incomplete or unverified items from American Databank.
- It may be that the flagged/highlighted requirement is something specific to myClinicalExchange. Please check in with your University Coordinator. They will either request you to update the information in mCE directly and submit to the for approval OR they may enter the information into mCE on your behalf

What do I do if I updated my information in ADB and I don't see it in myClinicalExchange?

mCE does a nightly pull from American Databank. If you have just updated your ADB Profile, please wait 24 hours for that information to populate into your myClinicalExchange account. If it has been more than 24 hours, email support@myclinicaexchange.com.
